Portfolio: https://abie-s-portfolio.vercel.app | GitHub: https://github.com/abrilmarangoni | LinkedIn: https://www.linkedin.com/in/abril-marangoni-49924327a/
Languages: English (Native), Spanish (Native), German (A2)

SUMMARY

Product Engineer focused on building MVPs and early-stage products from scratch, combining frontend engineering, UX/UI, and AI-powered systems. Experienced in rapid iteration, product thinking, API integrations, and shipping production-ready features in startup environments. Native English and Spanish speaker with international background.

CORE SKILLS

Product & UX: MVP development, product thinking, user flows, wireframing, usability, design systems
Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind
AI & Automation: OpenAI APIs, conversational UX
Integrations: Stripe, Meta APIs (WhatsApp, Instagram, Facebook)
Tools: Git, GitHub, Figma, Postman, Docker, Notion

EXPERIENCE

Founder & Product Engineer — ABA AI (Remote | 2025 – Present)
• Built an AI-powered SaaS product end-to-end (product vision, UX, UI, frontend, integrations)
• Integrated OpenAI APIs and Meta Business APIs for real-time conversational automation
• Designed a multi-tenant system with customizable dashboards
• Implemented a subscription-based monetization model
• Shipped MVP and iterated based on real usage

Product Engineer (Frontend-focused) — OneClick (Fintech) (Chicago, USA | 2024 – 2025)
• Built the initial MVP of a fintech payments platform
• Designed dashboards with real-time analytics and financial data
• Developed onboarding, checkout, and product management flows
• Integrated third-party APIs (Stripe Connect, Plaid, Bridge.xyz)
• Created a modular UI system

Product Engineer / Frontend — Freelance (Remote | 2021 – 2024)
• Built and shipped MVPs and production web apps for small businesses
• Owned UX, UI, and frontend implementation
• Translated business needs into functional MVPs
• Designed responsive interfaces and reusable components

EDUCATION

University of Texas at Austin — Postgraduate UX/UI for Data-Driven Applications (2024)
Hilet Institute of Technology — Full-Stack Software Development (2023)

CERTIFICATIONS

Generative AI — UT Austin / Great Learning
UX/UI Design — Coderhouse
